Respected Sir/Mam,

I am excited to apply for the Software Engineering Internship position at Microsoft. As a passionate Linux enthusiast and seasoned full-stack developer, I have cultivated a strong foundation in various technologies and methodologies that align perfectly with the innovative environment at Microsoft.

Currently, I am honing my skills at a dynamic startup, where I leverage a diverse tech stack—including MQTT, AWS (S3 and EC2), RabbitMQ, Redis, PostgreSQL, FastAPI, SQLAlchemy, and Jinja templating—to develop creative and efficient solutions. My experience in building responsive web applications using HTML, CSS, JavaScript, React, and React Native, combined with my proficiency in Python, Java, C, and C++, has equipped me with a comprehensive understanding of the software development lifecycle.

What excites me most about the opportunity at Microsoft is the chance to work with cutting-edge technologies and contribute to projects that empower users and organizations globally. I thrive on diving deep into Linux technologies, exploring their intricacies, and pushing the boundaries of what's possible. My keen eye for detail and problem-solving skills have driven successful outcomes in my current role, and I am eager to bring this dedication to Microsoft.

Also I believe I am a strong fit for Microsoft due to my alignment with the company's values of innovation, betterment, and empowerment. My passion for technology and commitment to continuous learning mirror Microsoft's dedication to fostering an environment where creativity and collaboration thrive. I am particularly drawn to Microsoft's focus on utilizing technology to solve real-world problems, and my experience in developing scalable solutions aligns with your mission to empower every individual and organization. I am excited about the prospect of contributing my skills to a team that prioritizes impactful work and strives to make a difference globally.

I am particularly inspired by Microsoft's commitment to innovation and its mission to empower every person and organization on the planet. I am confident that my technical expertise, along with my enthusiasm for continuous learning, make me a strong candidate for this internship.

Thank you for considering my application. I look forward to discussing how my background and skills can contribute to the exciting projects at Microsoft. Please feel free to reach out to me at sauravvishwakarma030@gmail.com or +917000729488. I am eager to explore the opportunity to join your team.

Sincerely
